2017

The era of taxi driving has begun! In addition to gymnastics, both girls tried summer swim team this year. We had fun watching their competitive sides come out.

Six-year-old Madelyn is growing up fast! Our first grader is proud that she can read chapter books like her sis and gets excited when she has homework, too. She still loves to sing, and this year started singing and piano lessons. Her heroes are Taylor Swift and any character from Disney Descendants!

Projects, projects, projects: we always have something cooking! 2 spare bedrooms and raising up our sunken living room floor topped off 2017. In between, we enjoyed time at the lake & took a 4-day sailing trip on Lake Superior. Our girls are becoming quite the sailors!

We escaped to the warm weather of Florida again for spring break. We joined our good friends the Fischers to soak up sun and relax with a week on New Smyrna Beach. We also enjoyed day trips to the Kennedy Space Center, the Marine Rescue Center & Ponce de Leon lighthouse.

8-year old Grace is in 3rd grade this year. She loves working on projects with classmates and has become an avid reader. No more princesses for this girl! She chose an "emoji" themed birthday party and spent time redecorating her room to reflect the grown up girl she is becoming.

No major changes for Geoff or Jill this year. We both continue to love our work and find new challenges in our careers with ISU Admissions & Boone CSD.

With a few days in Orlando at the close of our trip, we asked the kids what they wanted to do on their last day: "Disney World!!!" So we made the most of it, opening the park with a visit to Cinderella and closing it down with a Splash Mountain ride under the stars. The girls' huge smiles made the day well worth it!
